

Show Commission

Proposal No 2

To update the Annual Points Awards Rules to reflect current practice and provide clarification.

Proposed Addition

4.5 Points award calculation per show

Nomination = 1 point

Best in Show = 1 point (the cat must have beaten at least one cat during best in show to get this additional point. They will retain the 1 point from nomination)

Best in Category = 1 point (if there are more than 10 cats in category)

Best of the Best = 1 point

Motivation

This addition makes it clear for future commissions and its members how the Annual Point Awards are calculated. This is the current practice in previous commissions and we want to have this now reflected in the rules. The rule for the additional Best in Show point is to prevent additional points when there is no competition. The Best In Category additional point rule is to reflect the 10 cat rule in place for the Annual National Winners Show.
